

PVC SEMI RIGID DUCT HOSE

Temp. : -10°C to +70°C

Structure:

Interlocking rigid PVC profile by rigid PVC.
Flame Retardant.

Properties:

Self-supporting
Simple increase or reduction of size
Jointing of lengths
Good resistance to acids, alkalis, and chemicals
maintain shape
Flame-retardant according to UL94-HB

Applications:

For air, fume extraction and liquid supply under low pressure
For conveyance of powder, granules and dust extraction
For wood dust extraction
Portable air conditioner venting hose

Temperature range:

-10°C to 70°C

Colour:

Grey / Black

Standard Length :

5 meter
