

PVC SUCTION & DELIVERY HOSE

Heavy Duty Grey

Structure:

Hose made of spiral reinforcement of rigid PVC into fine grade soft PVC. A very sturdy suction & delivery hose for heavy duty applications. Quality PVC compounding and processing techniques have made the hose sturdy, flexible, chemical and abrasion resistant.

Pressure at 30°C

Working Pressure 2.5kg/cm² to 8kg/cm²

Bursting Pressure 6kg/cm² to 25kg/cm²

Applications:

Heavy duty suction & delivery of liquids, slurry, effluents and abrasive materials in industries like paper mills, cement, chemical, aquaculture, alkalies, sewerage disposal, coal & mineral mines, stone and lime quarries, projects, construction, petrochemicals, oil exploration, shipping etc. Ideal for handling saline (sea) water, light acids, alkalis and other chemicals except solvents. A heavy duty suction hose for sand pumps. **For better performance of sand / mud pumps, please use the followings newly added products.**
