

SILICONE HOSE FOR HOT PET CONVEYANCE

TEMP. 260°C

Structure:

Silicone Rubber coated 5 Layer fiber glass fabric hose reinforced with very strong spring steel wire with an extra white inner tube made of abrasion resistant silicone rubber of app. 2.5 mm Wall thickness.

Wall Thickness:

3 mm outer / 2.5 mm inner
Total Thickness App. 5 / 5.5 mm)

Standard Length

4 Meters

Applications:

Vacuum conveying of HOT PET granules, suction and delivery of solid and liquid, suction and blowing of hot air etc.

Temperature range:

1. -70°C to 200°C - for HOT PET Conveyance
2. -70°C to 260°C - for HOT AIR Suction and Delivery

 I.D.mm	 O.D.mm	 Wire.mm	 Pitch.mm	 bar	 bar
63	73	2.2	18.5	3.700	0.717
83	93	2.2	21.0	3.300	0.670
102	112	2.2	22.6	3.100	0.620
152	162	2.5	26.5	2.800	0.358
203	213	3.0	35.0	2.100	0.270

Further Versions: RIGID SILICONE HOSE - FDA

Construction:

- wall: silicone-coated sealed fiberglass fabric
- spiral spring steel wire integrated in wall
- wall thickness 5 mm

Material:

- wall: silicone-coated sealed fiberglass fabric
- spiral spring steel wire integrated in wall

Temperature Range:

- -40 °C approx. to +220 °C approx.
- short time to +280°C approx

Standard Color:

- Red

Properties:

- double-layer
- smooth interior
- good flow characteristics
- good overpressure and vacuum tightness
- superior heat and cold resistance
- lightweight
- flame-retardant according to UL94-HB (can customize UL94-V0)
- de-dusting in clean room
- food quality complied with FDA

Applications:

- welding fume extraction
- conveying heat granules for feeding equipment
- for food and pharmaceutical industry
