

PVC COATED POLYESTER FABRIC HOSE ANTISTATIC AND FLAME RETARDANT

Temp. -20°C to +70°C

Heavy Duty Antistatic and Flame Retardant

Heavy Duty Flame Retardant

Structure:

Heavy-duty polyester fabric hose, PVC-coated on both sides and reinforced with continuous tough spring steel wire. The hose is flame-retardant and antistatic, with a smooth inner and outer surface that strength and durability.

Wall Thick:

0.5 mm

Standard Length:

10 Meters

Features:

These hoses are lightweight, collapsible, and easy to handle—ideal for temporary or permanent ducting installations. Their resistance to abrasion, chemicals, and weather makes them reliable for both indoor and outdoor applications.

Temp:

-20°C to 70°C

Compression Ratio:

10:1.2

Colour:

White - Antistatic and Flame Retardant

Yellow - Flame Retardant

Applications:

Fabric hoses are designed for air intake and blowing applications. They serve as highly flexible and durable duct hoses suitable for a wide range of industrial uses, including:

- * Blowers and Portable Evacuators
- * Industrial and Commercial Fans
- * Fume and Smoke Extraction Systems
- * Ventilation and Air Circulation
- * Washing Machine Dryers and HVAC Systems
- * Pollution Control Equipment
- * General Industrial Air Movement and Exhaust
